Bornean Frogmouth

© Daniel Lopez Velasco

This was a pretty lucky trip for the 1st group of Birdtours Asia, although the tour started in the mid of Feb but we still had very good weather for the entire journey.

As usual, most of the key endemic in these regions were seen well ~ both Frogmouths, the **Dulit and Bornean**, especially the Bornean Frogmouth, spotted during the day and night, also both Pittas, the **Blue-banded and Bornean Banded**, really lucky they were active around, as well as the **Whitehead's Spiderhunter, Mountain Serpent Eagle, Black Oriole, Hose's Broadbill, Dayak Blue Flycatcher, Cream-eyed Bulbul, Pygmy Heleia, Black-throated Wren-babbler, Bornean Leafbird, Bornean Bulbul, Bornean Spiderhunter, Bornean Barbet, Mountain Barbet** and many more..

Beside, some good resident birds also into our goody bag ~ the **Hook-billed Bulbul, Malaysian Rail Babbler, White-necked Babbler, Olive-backed Woodpecker, Finsch's Bulbul, Scarlet-breasted Flowerpecker & Scaly-breasted Bulbul**, to name a few..
