After the 2 years Covid-19 locked down Malaysia finally reopened its international border for foreigners to enter, and we first welcome Birdtour Asia group to the Northern Highlands of Sarawak for birding. Good enough we managed to get most of our key targets except the Whitehead's Spiderhunter due to a huge landslide on the way up to the highest elevation of this region.

Our good birds namely the **Dulit Frogmouth, Bornean Frogmouth, Hose's Broadbill, Black Oriole, Blue-banded Pitta, Bornean Banded Pitta, Mountain Serpent Eagle, Dayak Blue Flycatcher, Black-throated Wren-babbler, Rail Babbler, White-necked Babbler, Crested Jay (Jay Shrike), Green Broadbill and Maroon-breasted Philentoma** and also some good endemic & resident species like **Bornean Barbet, Mountain Barbet, Bornean Bulbul, Bornean Leafbird, Bornean Spiderhunter, Pygmy Heleia, Cream-eyed Bulbul, Penan Bulbul, Finsch's Bulbul, Eye-browed Wren-babbler, Rufous-chested Flycatcher & Dusky Broadbill**.. to name a few..
