Hung Ming loves Borneo very much, after he joined a 05 days bird photography tour in Sandakan Sabah in 2009, he brought his son Wei Jets to Kuching Sarawak in 2013 to experience the endless excitement of this Island. This year 2019 they wished to see more endemic birds so surely Kinabalu Park is the right place to go. We went for a week and good enough we managed to get those highly sought-after species in the Park and also other common endemic and resident birds, namely the **Whitehead's Trio, Fruithunter, Everett's Thrush, Bare-headed Laughingthrush, Bornean Stubtail, Mountain Wren-babbler, Crimson-headed Partridge, Red-breasted Partridge, Short-tailed Green Magpie, Eyebrowed Jungle Flycatcher** and others..And Wei Jets was happy to get his wanted frog ~ **Mossy Bush Frog**, and also a day roosting **Sunda Frogmouth**.

We were supposed to be at Danum Valley Borneo Rainforest Lodge for Bristlehead, Pittas, Wren-babblers and Frogmouths in 2020 but due to the pandemic we were forced to defer our tour to the near future...
